Urgency: Expected

Severity: Moderate

Certainty: Likely

Issued:
Mon 19 Oct 2026
18:14

Effective:
Mon 19 Oct 2026
18:00

Onset:
Mon 19 Oct 2026
21:00

Expires:
Tue 20 Oct 2026
06:00

Area:
Budbud, Moqokori, Maxaas, Webxo, Buulo Burte

Description:
Heavy rainfall is expected to affect parts of Middle Shabelle and Hiraan regions, particularly Budbud, Moqokori, Maxaas, Webxo, Buulo Burte, and surrounding areas. The anticipated rainfall may be accompanied by thunderstorms and could result in localized flash flooding, water accumulation in low-lying areas, and disruptions to transportation

and daily activities. Residents in the affected areas are advised to remain vigilant and follow official weather updates and early warning information.

Instruction:

Residents of Middle Shabelle and the affected areas of Hiraaan are advised to remain vigilant and take necessary precautions against heavy rainfall and possible flash flooding. Avoid crossing flooded roads, seasonal streams, and low-lying areas. Keep children and livestock away from flood-prone locations, and move to safer ground if flooding threatens. Motorists should exercise caution, while local authorities and communities are encouraged to strengthen preparedness measures. Continue monitoring official weather forecasts and warnings issued by the Ministry of Environment and Climate Change.
